DEMO REELS

Why wouldn't you want to show of your work? Submit your reel to be shown at Life with Pixels 2018! Your work will be shown throughout the event and your peers will have a chance to talk to you about your work!

video specs

Resolution: 1920x1080

Format: mp4

Codec: h264

Fps: 23.976

Please provide:

Name, Company email, & Social Info

OPEN MIC

This is a chance to talk about one of your projects to an audience of your peers. We'd love to hear the story from the problem you were solving to concepting, pitches, client edits and the final tweaks to make it a project that you are proud of. After the design stories, there will be time for mingling, networking and answering questions about your work!

due dates

Sumissions are due **Aug 31st**. Please send along your final piece and a brief description of your project story.

We will choose the top stories to present for 5-7 minutes at the event. If selected, your final presentation will be due by September 5th.

GALLERY

Each designer/illustrator will have a section that is 8ft by 6ft to display their work. We will provide 3M strips to hang the work, so, unfortunately, we will not be able to hang fully framed work. Please reach out if you feel like there will be a problem with hanging the work you'd like to show.

You will be responsible for hanging your own work and will need to arrive at the venue at 2:30pm for set up. You will also be responsible for taking down your work at 9pm.

You can add pricing to work if you plan on selling it. Life with Pixels will not take any percentage of your sales, so it's all you!

While people will be free to check out the gallery at any time, there are specific times during the event we will be directing people to the gallery to meet you and discuss your work. The tentative schedule has planned time to check out the gallery from 5pm - 6pm, 7:30 -7:45, and 8:30pm - 9pm.
